*It affords me great pleasure to announce that I have associated with me in the Nursery business my eldest son, Harold Hornor, who has grown up with the business; and who for several years has taken an active part in the same, and is in every way trustworthy and reliable; and I solicit for him as well as myself a share of your generous patronage. The business will hereafter be conducted under the firm name of*

**CHAS. B. HORNER & SON.**

### Notice to Purchasers.

We take pleasure in sending you this, our 47th, Semi-annual Catalogue of Nursery Stock and herewith take the opportunity to thank former friends for their liberal patronage and support, and hope for a continuance of the same; and we solicit at least a Trial Order, from those who have never had any dealings with us, assuring them that our Stock will and has recommended itself in quality with the best, as well as in the condition in which it has been received by the purchaser, as past increase of sales and the many unsolicited testimonials received have proved.

The gratitude we feel at the large and increasing patronage of our friends, and especially for the warm encomiums which many have bestowed upon the quality of our stock and our methods of packing, would be impossible for us to describe. The opportunity to acknowledge the same affords us much pleasure, while it would scarcely seem necessary to say we shall endeavor to conduct our business in the future in a way that will be equally satisfactory.

### LOCATION.

Evergreen Avenue Nurseries are located on the eastern border of Mount Holly, N. J., 18 miles northeast of Philadelphia, and 20 miles south of Trenton. Fourteen trains Pennsylvania R. R. run daily to and from Philadelphia, Market street wharf, with daily freights to and from New York, Philadelphia and all other points.

### GENUINENESS.

Our stock is grown under our personal supervision, and the *greatest care possible* is exercised in keeping varieties *true and unmixed*; and we warrant them true to name, with the understanding and with this agreement between the purchaser and us, that should any prove not so to be that we will replace them with the genuine, but will not be liable otherwise. All persons entrusting orders to us, either verbally or in writing, are understood as accepting these conditions.

### ORDERS.

These should be written distinctly, being particular always to mention height and size as given in this List. The name and address of the party ordering should be given in full and *very distinctly*, particularly the name, with every order or letter. Also state whether to be sent by freight or express. *Early orders* are always most satisfactory. If deferred until late in the season some of the choicest and most desirable sorts are liable to be exhausted. In ordering please conform to the sizes named herein. All orders to be sent C. O. D. must be accompanied by one-fourth the amount in cash. Orders for trees, plants, etc., will receive prompt attention if sent by mail or otherwise. All articles after *free delivery* to forwarders in good condition are entirely at the risk of the purchaser, and no claims for errors in filling orders will be allowed unless made *upon receipt of goods*.

### PACKING.

Special pains are taken to pack all orders as lightly as is consistent with their safe transportation, and it is executed with the greatest care under our own supervision, for which no charge is made excepting for extra large trees, or where large cases are required.

### PACKING SEASON.

For Spring usually begins from the middle to last of March (according to the weather) and in the Fall commences in September and continues until the ground freezes so that we cannot dig stock.

The Trade, Dealers, Landscape Gardeners and those improving Parks, Cemeteries, Private Estates and Building Lots are invited to examine our stock before purchasing.

Terms.—Net Cash, except by special agreement, or unless the purchasers are regular well known customers, who have settled former bills promptly upon presentation.

**PARTICULAR** attention is invited to our **Fine Stock** of **SHADE TREES**, and to the Low Prices at which we offer them.

## ORNAMENTAL DECIDUOUS TREES.

### SHADE TREES.

			Each.	Ten.	100	1000
<b>Apple</b>	Parkman's Flowering Crab, 5 feet,		\$0 60	\$5 00		
<b>Ash</b>	American White, 14 to 16 "		40	3 50		
<b>Beech</b>	American, 5 8 "		50	4 50		
"	European, transplanted, 6 8 "		50	4 50		
"	Purple, " 6 8 "		1 00	9 00		
<b>Birch</b>	European Silver, 16 20 "		75	7 00		
<b>Buttonwood</b>	(see Plane Tree).					
<b>Catalpa</b>	Speciosa, transplanted, fine, 2½ to 3 feet,		15	75	\$5 00	
<b>Cherry</b>	Wild Black, 6 to 10 ft.,	25 to		50		
<b>Chestnut</b>	Japan Mammoth, 2 years,		50	4 00		
"	Spanish, stocky, 5 to 6 feet,		50	4 00		
"	French, 5½ to 7 feet, transplanted,		40	3 00		
"	" 8 to 10 " " 1½ to 1¾ inch caliper,		50	4 00		
"	" 10 to 12 " " 1¾ to 2 " "		75	7 00		
"	" 12 to 15 " " 2 to 2½ " "		1 00	9 00		

The fruit of the FRENCH CHESTNUT is not so large as the Spanish nor does it have the bitter skin of that variety, but it is as sweet as our American Chestnut and larger. The tree forms a fine, rounded head, is a good upright grower and an annual and abundant bearer. The trees have all been recently transplanted and are abundantly supplied with fibrous roots. Very hardy and easily transplanted. Very desirable either for shade or profit.

<b>Dogwood</b>	White Flowering, 3 to 4 feet,		25	2 00		
"	" 4 6 "		30	3 00		
"	" 6 8 "		50	3 50		
"	" 8 10 "		75	5 00		
"	Red Flowering, 3 feet,		75			
"	Weeping, 3 feet,		75			
<b>Elm</b>	American, 6 to 7 feet, transplanted,		25	2 00		
"	" 7 9 "		30	2 50		
"	" 10 12 "		50	3 50		
"	" 12 15 "		75			
<b>Honey Locust</b>	15 to 18 feet, 1¾ to 2½ in. caliper, 50 to		75			

A large and very vigorous grower, with leaves like an acacia, giving it a tropical appearance; if the branches are headed in while young it forms one of the most compact and beautiful shade trees we have.

**WHOLESALE CATALOGUE FOR SPRING OF 1893.**

			Each.	Ten.	100	1000
<b>Horse Chestnut</b>	—5 to 6 feet, 1½ inch caliper, . . . . .	\$0 50	\$4 00

" "	11 13 " " . . . . .	\$1 to	1 50	10 00		
" "	extra size, . . . . .	\$2 to	2 50	20 00		

*One of the most beautiful and desirable shade trees known where a very tall tree is not required, forming a very compact, regular, spreading head, with broad, deep green, shining foliage, which it retains very late in the Autumn, changing to golden yellow; moderate grower while young becoming a more rapid grower as it increases in size.*

<b>Maple</b>	—Silver, one year's seedlings, fine, . . . . .	10	50	2 50
" "	1½ to 2½ feet, seedlings, . . . . .	15	60	3 00
" "	2½ 3 " " . . . . .	18	75	4 00

" "	4 5 " " . . . . .	25	2 00	
" "	2½ 3½ " transplanted, . . . . .	40	3 00	20 00
" "	3½ 5 " " . . . . .	50	4 00	30 00
" "	5 6 " " . . . . .	10	75	6 00
" "	6 7 " " . . . . .	12	1 00	8 00
" "	7 8 " " . . . . .	15	1 25	10 00
" "	8 10 " " . . . . .	20	1 50	13 50
" "	10 " " nice trees, . . . . .	25	2 00	16 00
" "	10 12 " " fine " . . . . .	30	2 25	20 00
" "	12 14 " " ex. fine " . . . . .	40	3 00	25 00
" "	13 15 " " " . . . . .	50	3 50	30 00
" "	14 16 " " extra size, . . . . .	75	5 00	40 00
" "	18 20 " " 4 to 5 inch cal., \$2 to	3 00	20 00	

For producing a *quick shade*, and especially for street planting, there are few trees superior to the Silver Maple, being easily transplanted, free from disease, and is the most rapid grower of all the Maples, attaining a very large size, which makes it very desirable for Land Associations or those wishing immediate shade. This tree should not be confounded with the almost worthless *Silver Poplar*, which suckers badly from the roots—the *Silver Maple* does not sucker.

**CHAS. B. HORNOR & SON, MT. HOLLY, N. J.**

			Each.	Ten.	100	1000
<b>Maple</b> —Sugar, 1 yr. seedlings, straight, thrifty, well rooted, . . . . .			\$0 15	\$0 75	\$3 00	
" " 2 to 3 feet, transplanted, . . . . .			50	3 50		
" " 3 4 " "			75	4 00		
" " 4 5 " "			1 00	8 00		
" " 5 6 " "			\$0 25	1 75	12 00	
" " 6 8 " "			35	2 50	20 00	
" " 8 10 " "			40 to	50	3 00	25 00
" " 10 12 " "			50 to	75	5 00	45 00
" " 12 14 " "			75 to	1 00	7 50	60 00
" " 12 14 " extra specimens, . . . . .			\$1 to	1 50	10 00	90 00
" " XX specimens, . . . . .			\$2 to	2 50	20 00	

A very popular American tree; for its dense shade, stately form and fine foliage (which is beautifully tinted in Autumn), it is ranked among the very best. It is a vigorous grower, with remarkably straight trunk, even when young, and besides being one of the very best shade trees, it is valuable for its wood and production of sugar. The three Maples above named we consider the most valuable shade trees under cultivation for Avenue, Lawn or Park Planting, being very hardy, long-lived and free from insects and diseases.

<b>Maple</b> —Red, 15 to 18 feet, transplanted, . . . . .	75 to	1 00
" " 18 20 " "	\$1.50 to	2 00

<b>Sycamore</b> , 1 to 1½ feet, seedlings, . . . . .	20	1 00	6 00
" " 2 3 " "	35	3 00	
" " 3 4 " " transplanted, . .	75	6 00	
" " 4 5 " "	20	1 50	10 00
" " 5 6 " "	25	2 00	15 00
" " 9 10 " "	50	4 50	
" " 12 15 " "	75		
" " Purple leaved, 4 to 5 feet, . . . . .	40	3 00	
<b>Wier's Cut-leaved</b> , 1 to 2 ft., worked on heavy stocks	80	5 00	
" " 3 4 " "	1 00	8 00	
" " 4 5 " "	20	1 50	10 00
" " 5 6 " nice trees, . . . . .	25	1 80	12 00
" " 9 10 " "	30	2 50	20 00
" " 16 12 " extra fine, . . . . .	50	3 50	25 00
" " 11 13 " "	75	5 00	35 00
" " 15 18 " "	1 00		

We esteem this one of the most elegant and valuable trees of recent introduction. Fully as good a grower as the species; of drooping, graceful habit, and with leaves as deeply and delicately laciniated as a fern.

<b>Oak</b> —English, 8 to 10 feet, trans., 2 to 2½ in. caliper, . . . . .	1 00	9 00
" Mossy Cup, 10 to 12 feet, trans., 2 to 2½ in. caliper,	1 00	9 00
" Pin, 8 to 10 feet, trans., 2 to 2½ in. caliper, . . . . .	1 00	9 00
" Willow-leaf, 1 to 1½ feet, trans., . . . . .	1 00	5 00

The above Oaks are very stocky, have been transplanted and are branched to the ground and are elegant for Lawns, Avenues or Parks. Rapid growers.

<b>Plane Tree</b> —Platanus Orientalis, 7 to 8 feet, . . . . .	3 00
" " 8 to 9 feet, . . . . .	40 3 50
" " 9 10 " . . . . .	50 4 00
" " 10 12 " 1½ to 1¾ inch caliper, . . . . .	75 5 00
" " 12 14 " 1½ to 2 " . . . . .	1 00 7 50

A tree of the largest size, growing rapidly; very ornamental and entirely hardy; not subject to disease like our native species. A good street tree; very popular for extensive avenues.

			Each.	Ten.	100	1000
<b>Poplar</b>	—Carolina, 6 to 8 ft., 2 yrs., well branched, . . . . .		\$1 25	\$10 00		
"	" 8 9½ "	" . . . . .	1 50	12 00		
"	" 10 12 "	" . . . . .	\$0 25	1 80	15 00	
"	" 12 15 "	" . . . . .	30	2 50	18 00	
"	" 16 18 "	" . . . . .	50	4 00	30 00	

My Carolina Poplars are extra fine, being straight, smooth and well branched.

"	Lombardy, 10 feet, . . . . .		30	2 50		
<b>Willow</b>	—Weeping (S. Babylonica), 7 to 8 feet, well br., .		25	2 25	20 00	
"	" 8 to 10 feet, well branched, extra fine,		40	3 00	25 00	
"	Laurel-leaved (S. Pentandra), 1 to 2 feet, . . . . .			25	3 00	
"	" 3½ to 5 feet, transplanted, . . . . .			1 00	8 00	
"	" 12 15 " fine, . . . . .		75	6 00	50 00	
"	" extra size, tran., fine, . . . . .		1 00	8 00		

A very hardy, handsome and rapid growing tree, with regular rounded head; leaves broad, smooth, glossy and bright, deep green on both sides, which glisten in the sunlight as if varnished; very showy; desirable for many locations.

<b>Willow</b>	—Diamond, 7 to 9 feet, . . . . .		25			
"	" 13 15 " . . . . .		50	5 00

<b>PÆONIAS</b> , Double, White and Pink, fragrant, . . . . .	20	1 75		

The Pæonies are perfectly hardy, with large, double, showy flowers during May and June, and should be planted in the Autumn or very early Spring.

Descriptions of the above shrubs and grasses sent upon application.

# EVERGREEN TREES

We take pleasure in offering, along with our General List of evergreen trees, several New and Extremely Beautiful Species, which are sufficiently large to produce an immediate effect, to which we invite especial attention.

We have a LARGE and FINE ASSORTMENT of HANDSOMELY-GROWN EVERGREEN TREES both for transplanting and for immediate planting, grown in nursery rows with plenty of room for perfect development of branches, and they are furnished with an ABUNDANT SUPPLY of FINE FIBROUS ROOTS (having land well adapted to the growth of good evergreens), and THEY HAVE ALL BEEN two or more times transplanted (except where noted). Most of them have been transplanted within the past two or three seasons, and are first-class in every respect.

		Each.	Ten.	100
<i>Arbor-Vitæ</i> — American, 7 to 9 in., . . . . .		\$0 50	\$4 00	
“ “ 10 15 “ once transplanted, . . . . .		75	5 00	
“ “ 3½ 4 feet twice “ light, . . . . .		1 50		
“ “ 4 5 “ “ “ . . . . .		1 75		
“ “ 5½ 7 “ “ “ . . . . .		\$0 30	3 00	

A well-known native species, rapid, erect grower, and generally used (because low priced) for screens and hedges, but not so good for that purpose as the Pyramidal or Siberian Arbor-Vitæ and several other kinds of evergreens.

<i>Arbor-Vitæ</i> — Booth's Dwarf (T. Pumila), German Globe, 10-12 in,		1 50	12 00	
“ “ 1 to 1½ feet, twice transplanted, . . .		1 75	16 00	
“ “ 5 6 “ extra specimens, \$1 to 2 00				

Of dense growth and rather spreading habit; foliage a beautiful rich dark green, retaining its color well through the Winter; perfectly hardy and desirable.

<i>Arbor-Vitæ</i> — Compacta (Parson's Dwarf),				
10 to 12 in., twice tran., very bushy,		1 00	8 00	
“ “ 12 to 14 in., 9 to 10 in. diam., bushy, fine,		1 25	10 00	
“ “ 1½ to 2 feet, twice transplanted, . . . . .		2 00	15 00	
“ “ 3 to 3½ feet, 2 feet diam., extra fine, . . .		75	6 00	

Of dwarf form and perfect globe shape without shearing; pale, yellowish-green in color; one of the very best Arbor-Vitæ; suitable for cemetery lots, beds, or where a very bushy dwarf tree is desired, *Those we offer are unusually bushy, extra fine specimens*, being 2 feet in diameter, and are fine for pots and tubs.

<i>Arbor-Vitæ</i> — Chinese (B. Orientalis), 4 to 5 feet, transplanted, . . . . .	20	1 50	10 00	
A good, but open grower, light green color, makes a good hedge if kept well sheared.				

“ “ Golden (B. Orientalis Aurea), 2½ ft., twice trans.	40	3 00		
“ “ 2½ to 3 feet, fine specimens, twice tran., . . .	60	5 00		
“ “ 3 3½ “ XX specimens, 2 feet diam., . . .	75	6 00		

A dwarf variety, growing to the height of 4 or 5 feet; of compact, rounded form, with bright golden-green foliage.

<i>Arbor-Vitæ</i> — Ever Golden (B.O. Semper Aurei), 2½ to 2¾ ft., . . \$1 to 1 50 10 00				
“ “ “ 2½ to 2¾ feet, XX specimens, . . . . .

“ “ “ 2½ to 3 feet, XXX specimens, twice				
“ “ “ trans., . . . . .	\$2	2 50	20 00	

A new GOLDEN ARBOR-VITÆ and is decidedly the finest ever introduced. In both COLOR and GROWTH it is SIMPLY EXQUISITE; it is entirely hardy and retains its color through the entire year.

			Each.	Ten.	100
<b><i>Arbor-Vitæ</i></b> — <i>Elegantissima</i> (Rollinson's Golden), 2 to $2\frac{1}{2}$ ft., . . . . .	\$0 50	\$4 00			
" " " 4 $\frac{1}{2}$ to 5 feet, XX spec., twice trans., . . .	1 00	4 00			
" " " 8 10 " extra size, tran., . . \$1.50 to	2 00	15 00			

A beautiful tree of pyramidal form, below medium size, with foliage prettily tipped with greenish-yellow, changing to a beautiful bronze in winter; in cold weather the tips of the twigs on the sunny side of the tree are bright yellow, as if studded with golden jets; very distinct and desirable. Especially hardy at the seaside.

<b><i>Arbor-Vitæ</i></b> — <i>Geo. Peabody</i> (Peabody's Golden), 4 to 6 in., trans., . . . . .	1 25	\$10 00
" " " " " 10 15 " " . . . . .	1 75

" " " " " 9 10 " " XX spec. 1 50		
" " " " " 10 11 " " XXX " 3 00		

The remarkably upright, dense growth, rich, dark green foliage (retaining its color remarkably well through the entire season) and exceeding hardihood of the Pyramidal Arbor-Vitæ, render this tree *of the greatest value, especially for cemetery planting and small grounds*. It is of the same habit as the Irish Juniper, and is decidedly more valuable for its superior hardiness and beauty, and is of inestimable value for screens and hedges, as it needs very little shearing. *For ornamental planting and decorating it is one of the very best Arbor Vitæs grown.* Its extreme height is 20 to 30 feet, with perpendicular sides, only 4 or 5 feet in diameter, presenting the appearance at a distance, of giant sentinels on the lawn. Everybody should plant at least one specimen, if not a hedge of this now very popular tree.

<b><i>Arbor-Vitæ</i></b> — <i>Siberian</i> , 9 to 12 in., twice tran., 9 to 12 in. diam., . . . . .	1 25
---	------

		Each.	Ten.	100
<b>Arbor-Vitæ</b> —Siberian, 2½ to 3 feet, twice trans., . . . . .		\$0 50	\$3 50	
" " 3½ 4 " XX specimens, 2½ feet diam.,	1 50	12 50		
" " 5 6 " " . . . . .		1 50		

Is of broad, compact form, and of symmetrical, but rather slow growth, exceedingly hardy; it has a heavy, rich, deep green foliage, to the ground, retaining its color well during the Winter; valuable for ornamental planting, hedges and tubs. The third size of Siberian Arbor-Vitæ named above are the finest trees that I ever saw.

<b>Arbor-Vitæ</b> — Vervæne's Variegated, 6 feet, handsome, . . . . .	1 00	8 00
---	------	------

A fine distinct variegated variety, in which green and yellow are finely blended; of fine form and entirely hardy.

<b>Box</b> —Chinese tree, Broad leaved, 1½ to 1½ feet, . . . . .	20	1 00
" " Long " 1½ to 1½ feet, . . . . .	20	1 00

" " 7 9 " . . . . .	3 00	to 5 00

*"The Queen of Evergreens." Surpassing all others in elegance and Grace. A Perfect Vernal fountain all the year round*

A Magnificent tree from California, having small deep green leaves, with a whitish margin when young, forming with the pendulous twigs feathery-like, flat spray, of a bluish-green, color. One of our handsomest evergreens, retaining its bright, lively, green color throughout the year; not easily to be forgotten if once seen.

### RETINOSPORAS (or JAPAN CYPRESS).

All of the Retinosporas, or Japan Cypresses, are beautiful and a great acquisition to our list of Evergreen trees; being entirely hardy, good growers, very handsome and very easily transplanted they should be more generally planted.

The prices at which we offer them gives every one an opportunity to try at least a few of them.

It is impossible to convey an adequate idea of the beauty of these Japanese Evergreen trees, either from cuts or description, *they must be seen to be appreciated.*

I have been growing the Japan Cypresses for more than 20 years and I am more pleased with them each year that I grow them. To obtain the best results from these trees they should be frequently sheared, as the brightest color is on the young growth and it keeps them compact and in good shape; the best time to shear them is early spring and again the first of August. All of the Retinosporas are handsome and scarcely too much can be said in their favor. Each variety is distinct from the others in color and habit of growth.

I wish to call particular attention to the rich deep green color of R. Obtusa Nana, the bright golden of R. Plumosa Aurea and the silvery tinted foliage of R. Sqarrosa Veitchi. The Retinosporas are all benefitted by shearing them occasionally, especially while young.

<b>Cypress</b> —Japan, Plume-like (R. Plumosa), 8 to 10 in., tran., . . . . .	75	6 00
" " " 1½ to 2 ft., twice tran., . . . . .	1 75	
" " " 2 2½ " " . . . . .	2 00	16 00
" " " 5 " " . . . . .	50	4 00
" " " 7 10 " " unshorn, . . . . .	75	6 00
" " " 8 - 10 " " tree-form, . . . . .	50	4 00

A vigorous growing tree, of moderately dense habit, with slender branches and light green soft feathery plume-like foliage.

	Each.	Ten.	100
--	-------	------	-----

**Cypress**—Japan (or Retinospora), Japan dwarf, obtuse leaved.

"	Ret. Obtusa Nana, 8 to 12 inches, . . . . .	\$2 50
"	" " " 1 to 1½ feet, twice tran., . . . . .	\$0 75 6 00
"	" " " 1½ 2 " " . . . . .	\$1.00 to 1 25 10 00
"	" " " 2 2½ " ex. specimens, . . . . .	1.50 to 1 75 15 00
"	" " " 2½ 3 " XX " . . . . .	2.00 to 2 50 20 00
"	" " " 3 " XXX " . . . . .	3 00 30 00

**A PERFECT LITTLE GEM**, exceedingly choice and beautiful. It is of dwarf growth, irregular form, and so compact that nothing can be seen but the foliage, which is very heavy and of the deepest, richest velvety-green imaginable, retaining its bright color admirably all winter; universally admired; especially adapted for planting in groups, tubs or vases, at the edge of walks, etc. It is perfectly hardy without protection even in the most exposed situations. There are but few, if any more beautiful Evergreens than the RETINOSPORA OBTUSA NANA. This tree is VERY RARE and as yet but little known, but when better acquainted with it will become a great favorite, especially where space is limited.

**Cypress**—Compact Japan Cypress (R. Compacta), . . . . . 1 50

A handsome dwarf tree, with lovely green foliage at all seasons; all of the many branches starting directly from the ground; odd and beautiful.

**Cypress**—Japan, Golden (R. Plumosa Aurea), 1½ to 1¾ feet, . . . . . 25 2 00 \$15 00

"	" " 3 feet, sheared twice, XX spec., . .	\$1.00 to 1 50 10 00
"	" " 3 to 3½ ft., " " . . . . .	1.50 to 2 00 15 00
"	" " 3 4 " unshorn, . . . . .	.40 to 60 4 00
"	" " 3½ 4 " 2½ to 3 ft., diam., fine, . .	.60 to 80 6 00
"	" " 4 5 " 2½ 3 " ex. " . . . . .	.75 to 1 00 9 00
"	" " 7 8 " 4 5 " . . . . .	1.50 to 2 00 15 00

Of the many Retinosporas (all of which are valuable) this is one of the most beautiful and useful. It is entirely hardy, of good growth, and each branch is deeply tipped with the brightest golden, which it retains throughout the year. The foliage is exceedingly fine and soft resembling, as its name implies, a golden plume, and is superlatively beautiful.

The following we quote from *Gardner's Monthly*:-"PLUMOSA AUREA is one of the most beautiful of the Golden Evergreens at all seasons of the year, but especially in Summer. When the tree starts to grow in the Spring, the young shoots are a rich shade of golden yellow, and it calls forth almost universal admiration. This golden appearance is retained with but slight diminution in freshness and beauty through the year. It is a most valuable acquisition to the list of Golden Conifers."

This tree is greatly benefitted by shearing every Spring, and by doing so will form elegant specimens, and makes a very dense, compact, beautiful, golden-tipped hedge, forming a striking contrast with hedges of a darker hue.

**Cypress**—Japan, Heath-leaved (R. Ericoides), 1 to 1½ ft., bushy, fine, 1 50 12 50

"	Obtuse-leaved (R. Obtusa), 6 to 9 inches, tran., . . .	1 50
"	" " 4 to 5½ feet, twice tran., . . . . .	60 5 00
"	" " 9 10 " XX spec., . . . . .	2 00

A charming lawn tree of vigorous growth, assuming a pyramidal outline, yet with a pleasing, open habit and graceful, waving branches. Foliage scale-like and set densely to the branches.

**Cypress**—Japan, Siebold's bronze-leaved (R. Squarrosa Sieboldii),

"	" 10 to 12 in., . . . . .	25 1 50
"	" 2½ feet, twice tran., . . . . .	50 4 00
"	" 3 to 3½ " " . . . . .	.60 to 75 5 00

Of dwarf habit and dense growth, foliage of a blueish-green in Summer, changing to violet-purple in Autumn, which it retains all Winter; very attractive and beautiful; fine for small groups and for pots and tubs.

**Cypress**—Japan, Silver (R. Squarrosa Veitchii), 6 to 10 in., bushy, . . . . . 1 25

"	3 to 3½ ft., sheared twice, XX spec., . . . . .	75 to 1 00 7 50
---	---	-----------------

	Each	Ten.	100
--	------	------	-----

<b>Cypress</b> — Silver 3½ 4 feet, sheared twice, XXX spec. . .	\$1.00 to \$1 50	\$10 00
" " 3 4 " unshorn, . . . . .	.50 to	75
" " 4 5 " 3 feet diam., . . . . .	.75 to	1 00
" " 8 9 " tree form, . . . . .	.75 to	1 00

This is a very vigorous growing sort with drooping, graceful branches. *The foliage is most delicate, feathery and glaucous*, being exceedingly fine and soft, of a steel blue color, having the appearance of being covered with frost. *It is exceedingly hardy, a superb tree and of greatest value for contrasting with other evergreens, or for planting as single specimens; very worthy of more extended cultivation.*

**Cypress** — Japan, Weeping, Thread like (R. Filifera),

1½ to 1½ feet, twice tran., . . . . .	25	2 00
3½ " " . . . . .	50	4 50
5 " " . . . . .	75	
6 " " 4½ to 5 feet diam., . . . . .	2 00	

A handsome tree with long, slender, thread-like, rich, light green branches, drooping gracefully, forming odd and beautiful specimens for the lawn, unlike any other Evergreen tree. Like the above this tree is of great value for contracting with other evergreens, or for single specimens on the lawn.

<b>Cypress</b> — " Pea-fruited (R. Pisifera) 1½ to 1¾ feet, . . . . .	30	2 00
" " 5 feet, twice tran., . . . . .	75	
" " 8 " " . . . . .	1 50

“ “ 10 13 “ sheared, for transpl. or Xmas trees, 2 to . . . . .	3 00	25 00		
“ “ 10 13 “ unshorn, . . . . .	1.50 to	2 00	15 00	

A lofty, elegant tree of perfect pyramidal habit, rapid growth, remarkably elegant and rich and, as it gets age, has fine, graceful, pendulous branches; it is exceedingly picturesque and beautiful; entirely hardy, very popular, and deservedly so, and should be largely planted; ONE OF THE BEST EVERGREENS FOR WIND-BREAKS, HEDGES, GROUPS OR FOR SINGLE SPECIMENS.

When allowed room for development this makes one of the finest of ornamental trees, with the limbs resting gracefully on the ground and extending in well grown specimens, a distance of 25 or 30 feet from the trunk. Where space is limited it should be kept carefully pruned.

The fifth and sixth sizes of Norway Spruces above and the five sizes marked specimens, are without doubt, as fine specimens in their respective sizes as can be found anywhere, and are well worthy of the attention of Landscape architects or others wishing such stock.

<b>Pine</b> —Austrian, 2 to 2 $\frac{1}{2}$ feet, transpl., . . . . .	20	1 25	10 00

# FRUIT DEPARTMENT.

## APPLE TREES.

In the selection of varieties the purchaser should be governed in a measure by what kinds do best in his neighborhood.

The following varieties, ripening nearly in the order named, not only do well in this locality, but we think will pretty generally be found to be desirable.

The following prices for apple trees are for the purchaser's selection of varieties, but if we run short of some kinds (unless requested not to do so) we reserve the privilege of substituting other kinds equally as good and seasonable.

### SUMMER VARIETIES.

Early Strawberry, Yellow Transparent, Benoni, William's Favorite (William's Early Red), Cooper's Early White, Summer Rose, Sweet Bough, Summer Hagloe, Early Harvest, Early Pennock, Tetofsky,

### FALL VARIETIES.

Orange Pippin, Duchess of Oldenburg, Maiden's Blush, Wealthy, Nyack Pippin, Gravenstein, Mountain Pearmain, Pleasant Valley Pippin, Fall Pippin, Yellow Bellefleur, Wine or Hayes, Christiana, Jersey Sweeting, Red Bietigheimer.

### WINTER VARIETIES.

R. I. Greening, Baldwin, Jonathan, Fallawater, American Golden Russet, (Sheepnose), Roman Stem, Ben Davis, York Imperial, Winesap, Smith's Cider, Red Smith's Cider, Mann, Cooper's Market (Cooper's Redling), Nickajack, White Pippin, Swaar, White Winter Pearmain, Monmouth Pippin, Ridge Pippin, Westfield Seck-no-further, Stark, Dickinson, Nero, Walbridge, Indian, Salome.

	Each.	Ten.	100	1000
--	-------	------	-----	------

<b>Apples</b> —1st Selection, 5½ to 7 ft., 3 & 4 yrs., 3 in. caliper and up,	\$0	15	\$1	20	\$9	00	\$75	00
“ Extra size, 8 9 “ 4 “ 1 to 1½ in. caliper,	25	2	00	12	00			
“ Bearing size, 9 11 “ 5 & 6 “ 1½ 1½ “ “ .	50	4	50	25	00			
“ 2d class, 6 7 “ 3 & 4 “ . . . . .	10	80	7	00				

The last named size of apple trees are not as straight and smooth as the other three sizes named above, but are vigorous and healthy, and with a little care will make good orchards at a low cost.

<b>Apples</b> —Lady and Delaware Red Winter,	7 to 9 feet, 4 & 5 years from bud,	25	2	00
“ Crab, first-class,	3 & 4 “ “ .	15	1	25

**Varieties.**—Hyslop, Siberian, Transcendent and Montreal Beauty.

Description of varieties sent on application.

### PEAR TREES.

#### GENERAL LIST.

Lawson or Comet, Manning's Elizabeth, Clapp's Favorite, Bartlett, Sheldon, Seckel, Howell, Onondaga, Belle Lucrative, Beurre d'Anjou, Kieffer, Lawrence and Flemish Beauty.

<b>Pears</b> —1st Selection, 4½ to 6 feet,	. . . . .	\$0	40	\$3	00	\$25	00
“ Extra size, 7 8 “ . . . . .	75	6	00	50	00		
“ Medium size, 4 5 “ . . . . .	25	2	00	15	00		
“ Beurre Bosc, Beurre Clairgeau and Dana's Hovey, .	50	4	00				
“ Cole's (Coreless and Seedless), new, fine quality, . .	75	6	50				

Cole's (Coreless and Seedless) ripens a month later than Seckel, of full Seckel size and as good in quality. An enormous bearer. A three-years old (root graft) tree bore 17 pears and when four years old bore 200 pears.

		Each.	Ten.	100	1'00
<b>Pears</b> —Idaho, top worked, . . . . .		60	5 00		
“ Vermont Beauty, top worked, . . . . .		60	5 00

<b>Cherries</b> —Tart or sour, 4 to 6 feet, . . . . .		25	2 50		
---	--	----	------	--	--

Leading varieties.—Belle de Choicy, Early Richmond, English Morello, L. Montmorencie, May Duke, Olivet, Common Wild Black.

## PEACH TREES.

We have 50,000 **PEACH TREES** grown on land never before occupied by peach trees, carefully budded on seedlings grown from **PURE** Natural Southern Seed, (seed crop of 1889), and are true to name. Eighty-five per cent. of the peach trees offered for sale this spring will be grown on seedlings from California or mixed seed. Our peach trees are all budded on seedlings grown from Natural Southern seed.

The following varieties, ripening nearly in the order named, will be found desirable and profitable, either for family use or for market.

### STANDARD VARIETIES.

Gov. Garland, Waterloo, Schumaker, Troth's Early, Lady Ingold, Foster, Large Early York, Crawford's Early, Mountain Rose, Old Mixon Free, Newark Seedling, Stump the World, Susquehanna, Chinese Cling, Wheatland, Reeve's Favorite, XX Yellow, Moore's Favorite, Ellison, Crawford's Late, Globe, Fox's Seedling, Hill's Chili, Morris Co. Rareripe, Lord Palmerston, Chair's Choice, Ward's Late Free, Pride of Franklin, Stephen's Late Rareripe, Lovett's White, Ford's Late White, Geary's Hold-on, Camden, Smock, Salway, Late Heath Cling, Bilyeu's Late, "Wonderful."

Descriptions of varieties sent on application.

### PRICES OF PEACH TREES.

#### PRICES for a GENERAL ASSORTMENT (including "WONDERFUL".)

Extra size, 5 to 6 feet, one year from bud, 9-16ths inch and up .	\$0 12	\$0 75	\$5 00	\$42 00
1st Selec., 4 5 “ “ “ $\frac{1}{2}$ inch and up, . . . . .	10	60	4 50	38 00
“ light, 4 5 “ “ “ under half inch, . . . . .	08	50	4 00	32 00
Medium size, 3 to 4 feet, one year from bud, . . . . .	06	40	3 00	25 00
Third size, 2 3 “ “ “ . . . . .	05	35	2 25	20 00

We have about forty thousand two year old peach trees, most of which had the tree digger run under them last spring, consequently made very little top growth, and are a little unsightly, but have good roots, which will we sell at twenty-five per cent. discount from the hundred and thousand rates of one year trees above; customers that have tried two year peach trees say that they do equally as well as one year trees.

<b>Apricots</b> —Russian varieties, . . . . .	\$0 25	\$2 00
Catherine, Gibb, Alexis, Nicholas, Alexander and J. L. Budd.		

<b>Nectarines</b> —2 years, . . . . .	25	2 00
Elrige, Greinbeck, Lord Napier, Violette Hative and Stanwick.		

<b>Plums</b> —2 years, on peach, . . . . .	25	2 00
Spaulding, Shippers' Pride, Niagara, Union Purple, Imperial Gage, Wild Goose, Mariana, Abundance, Japan Purple Leaved, ( <i>Prunus Piscardi</i> .)

"	Moyer, Walter, Empire State, 2 years, . . . . .	30	2 50		
<b>HORSE RADISH.</b>	—Sets, . . . . .		15	50	3 00
<b>RHUBARB.</b>	—Myatt's Linnaeus, . . . . .		40	2 50	
<b>SAGE.</b> — <b>Holt's Mammoth</b> , . . . . .		10	40	3 00	

YOUNG THRIFTY GROWING PLANTS. These plants will not fail to give satisfaction, as in two or three years they will form plants from 3 to 4 feet in diameter.

A trial of HOLT'S MAMMOTH SAGE will result in the purchaser using no other variety in the future, as it forms immense plants and leaves which are very thick, and NEVER RUNS TO SEED, thereby saving a great deal of unnecessary work; very desirable and a great improvement over the old garden sage.

40,000 {	<b>Barr's Mammoth</b> , 1 year, . . . . .		35	2 50
"	" " 1 " extra selected, . . . . .		50	3 50

75,000 {	<b>Conover's Colossal</b> , 2 years, . . . . .		50	3 00
"	" " 1 " . . . . .		30	2 00
"	" " light, for mailing or transplanting, . . . . .		15	1 20
40,000 {	<b>Elmira</b> (new), fine, strong plants, . . . . .		80	6 00
"	" " 1 year, . . . . .		60	5 00

"For some years past the city of Elmira, New York, has had the reputation of having on sale the finest and largest asparagus grown in the State. This asparagus has attracted much attention from dealers and commission merchants generally throughout the State, all anxious to get it. The asparagus was grown entirely by one prominent market gardener, who had become noted as growing this asparagus, for which he realized handsome prices, and although a large grower, was unable to supply half the demand. The color is notably different from either Barr's Mammoth or Palmetto, while the stalks are more tender and succulent. Its mammoth size can be realized from the fact that in whole crops five stalks will average a pound in weight."
